Mathematics Placement & Assessment Summit

November 30th

10:00 am - 3:30 pm

Oklahoma City Community College
Student Union

Facilitated by

As part of the broader work of the Mathematics Success Initiative, public institutions of higher education are making progress on offering multiple freshman-level mathematics courses and offering co-requisite options. Proper course placement of students into their first college-level mathematics course is vital to student success.

Oklahoma State Regents for Higher Education will facilitate a statewide event to discuss math placement strategies. Institutions are invited to bring a team of 3-5 people who are familiar with institutional placement and assessment practices. Institutional teams are encouraged to include a math faculty member who is familiar with the four general education mathematics courses.

Please contact [Dr. Rachel Bates](#) for more information.

Register by November 23rd

Registration link: <https://www.surveymonkey.com/r/MathPlacement2018>

Workshop Registration will begin at 9:30 a.m.

OSRHE would like to thank Oklahoma City Community College for donating the rooms for this event.
