

Each student taking ACT State/District testing will need a MyACT account to complete non-test information. Accessing a MyACT account can vary depending on each student's possible prior access to an ACT online account and the student may encounter different scenarios or messages when trying to complete their non-test information. Please refer to this when assisting students and provide this document to them if needed. If school staff has any questions, please contact us using the [contact us form for state and district testing staff](#).

Queuing

ACT has implemented a queuing system to help with access in MyACT. When students go to MyACT to sign in, if the access threshold has been met, they will receive a pop-up letting them know how many students might be ahead of them and anticipated wait time. The queuing system will allow the next group of students into the system each minute and they will go directly to the sign in screen. Please instruct students not to exit from this page as they may lose their place in the queue. It will be possible for students in the same room to have different spots in the queue.

Creating MyACT Accounts

- Students creating accounts will need access to text or email for verification purpose.
- Verification emails are sent from identity-services@act.org with the subject *Action Required: Activate ACT Account*. Students should check spam/junk folders if they don't see it in their inbox.
- Students creating MyACT accounts will have 24 hours to use their verification email/code.
- Students who do not have a personal email or cell phone can use a parent account.
- MyACT will time out after 60 minutes of inactivity.
