What?

An unparalleled conference designed exclusively for Oklahoma higher education organizations. This one-of-a-kind conference promises a cross-organizational experience with dynamic sessions tailored for the diverse needs of our Oklahoma higher education organizations and institutions, ensuring valuable insights and strategies. Unique opportunities to network, learn and collaborate with peers across the great state of Oklahoma! This first-ever shared conference experience is shaping up to be a spectacular event this year that no one will want to miss!

Why?

To foster cross-organizational knowledge sharing, facilitate learning from one another, and discuss the development and streamlining of processes and policies. But also, the newness of bringing together peers and colleagues from across hallways to engage in discussions on the “how-tos” of operating and working together. To be encouraged in our good works.

How?

- By offering over 50 sessions!
- Directly related to the specific areas represented.
- Shared sessions between represented areas
 - Think a certifying official with a bursar
 - Or a financial aid counselor and an international PDSO
- Birds of a Feather sessions
- A vendor listening session, not a sales session!
- Policy sessions
- Professional Development sessions
- FERPA for every office session
- Designated organizational business meetings
